Joint Force Quarterly is published for the Chairman of the Joint Chiefs of Staff by the Institute for National Strategic Studies, National Defense University, to promote understanding of the integrated employment of land, sea, air, space, and special operations forces. The journal focuses on joint doctrine, coalition warfare, contingency planning, combat operations conducted by the unified commands, and joint force development.

The editors invite articles and other contributions on joint warfighting, interservice issues that support jointness, and topics of common interest to the Armed Forces (see page 128 for details). Please direct editorial communications to:

November 1994

NOTICE: This issue is designated number 6 (Autumn/Winter 1994-95) and the next will be number 7 (Spring 1995). Resequencing the seasonal designation compensates for the lag in production that resulted in past issues arriving toward the end rather than the start of each quarter. Accordingly, number 7 will appear approximately three months after this issue with subsequent ones published at a similar interval. This does *not* mean the loss of an issue; regular readers and subscribers will receive four issues over the coming year.
